

PUBLIC HOUSING IN BARNET?

The shortage of social and affordable housing is one of the most pressing problems facing our communities. Is council housing the answer to the crisis? What can councils do to tackle the housing shortage? What should Londoners expect? What's the solution: housing associations? housing co-ops? mutuals? self-builds? Must regeneration be gentrification?

Come to this open forum to discuss with other members of the housing community – councillors, tenants and campaigners – possible solutions to the current housing situation and what actions can be taken next. Working in groups, this is an opportunity for you to give your views of what needs to be done and by whom.

To have your say, join us at

Our West Hendon is a campaign group of residents on the West Hendon Estate that is striving to get a redevelopment that is for the local community, not at the expense of it. Our main aim is to ensure that all those residents who choose to remain on the redeveloped estate should have the right to do so. Our community, Our homes.
